

## Searching Inspection Plans on the ISC website

Inspections are created, partially resolved and fully resolved as new surveys are submitted and examined. Inspections are all to be maintained to be current

These plans would qualify under ISC's Survey Monument Restoration Program - the amount dependent on what is required and or completed.

There is no cost to do a search, but fees are charged to view the image / plan

### To Search:

- Log in (create a user account if you do not have one) at <https://www.isc.ca>
- Select "Plan Search" from the menu on the left
- Search for "Plan (By Attributes)". Use the drop down menu to select "Inspection" as the Plan Purpose. Scroll to the bottom of the drop down box and click ADD.

The screenshot shows the ISC website's Plan Search interface. The 'Plan Purpose' dropdown menu is open, showing 'Inspection' selected. Red arrows point to the 'Plan (By Attributes)' dropdown, the 'Inspection' option, and the 'Add' button.

- Scroll to the bottom of the page and select SEARCH to see the full listing:

The screenshot shows the ISC website's Plan Search Results page. The 'Plan Purpose' is set to 'Inspection'. The results table shows a list of plans with columns for Select, Report, Image, Plan Number, Registered Plan Number, Plan Description, Plan Type, Plan Purpose, and Highway Plan Number.
